

Get your glitter on

By Joy Sewing | HOUSTON CHRONICLE

Let a touch of sparkle light up your days and nights this fall. Consider a silver clutch or a pair of glistening shoes. Or slip on a magical dress. Metallic looks flashed all over the fall runways at New York Fashion Week — for day and evening.

“Metallics, especially gold and silver, really highlight a woman’s hair and skin, and give a sheen and excitement to clothes,” says designer Linda Cunningham, who has a signature boutique in Houston. Her holiday collection features decadent gold and silver dresses that provide just the right amount of dazzle.

Among their many blessings, silver and gold are great minimalists. Translation: They’re all the sparkle you need.
